

2016 IEEE Intelligent Vehicles Symposium

June 19-22, 2016 | Lindholmen Science Park, Gothenburg, Sweden

Sponsored by the IEEE Intelligent Transportation Systems Society

Call for Papers

The **Intelligent Vehicles Symposium (IV'16)** is a premier forum sponsored by the **IEEE Intelligent Transportation Systems Society (ITSS)**. Researchers, engineers, practitioners, and students, from industry, universities and government agencies are invited to present their latest work and to discuss research and applications for Intelligent Vehicles and Vehicle-Infrastructure Cooperation. Technical sessions, workshops, poster sessions, exhibition, and technical visits will be organised. The IV2016 is hosted by Chalmers University of Technology and SAFER Vehicle and Traffic Safety Centre.

Gothenburg is a perfect city for the symposium because it is the centre of automotive industry in Sweden, with headquarters of Volvo Trucks, Volvo Cars, and the supplier Autoliv, and where many international companies and academia have their development and research base. The brand new proving ground for active safety testing – AstaZero – is very close.
